

**Cross UCD *In Vivo* Molecular Imaging Symposium 2008:  
Optical and PET Imaging in Disease Models**  
*(Partly sponsored by Caliper LS)*

Conway Lecture Theatre  
Thursday June 12th 2008, 10am-2.45pm

*Programme:*

Dr. Alexandra De Lille  
**(Caliper LS)**

*'Recent Advances in Non-Invasive Optical Imaging'*

Prof Clemens Lowik

**(Leiden University Medical Centre, The Netherlands)**

*2D and 3D Optical imaging and multi-modality imaging of bone metastasis of breast  
and prostate cancer: studies towards new treatments*

**COFFEE BREAK**

Dr Andrew Kung

**(Dana-Faber Cancer Institute, Harvard Medical School, USA)**

*'Integrating in vivo imaging endpoints in drug discovery'*

**LUNCH BREAK 12pm-1pm**

Prof Roger Lecomte

**(Sherbrooke Molecular Imaging Centre, University of Sherbrooke, Canada)**

*PET molecular imaging in biomedical research: technology, methodology and applications*

Prof Andreas Jacob

**(University of Cologne, Germany)**

*(Title to be confirmed)*

Prof Bertrand Tavitian

**(Service Hospitalier Frédéric Joliot, Orsay, France)**

*(Title to be confirmed)*

*RSVP: to Dr Annette Byrne ([annette.byrne@ucd.ie](mailto:annette.byrne@ucd.ie))  
Complementary Lunch & Coffee Breaks Provided*
