NSAI is holding a Medical Devices Information Day on the recent revisions to the *Medical Devices Directive (MDD 2007/47/EC)*, concentrating on the extra regulatory demands on Notified Bodies and Manufacturers.

Manufacturers need strong partnerships with a Notified Body that has the expertise and is adaptive, resourceful, responsive and capable of facilitating timely CE Mark approvals.

NSAI has this ability and fully embraces current regulatory challenges to expand Ireland's competitive edge.

The Information Day provides an opportunity to highlight the 'public good' and national importance of NSAI working closely with the medical device industry, the IMDA, IDA, Enterprise Ireland, IMB and medical professionals.
